

Question

Hello there!!! Interested-want to buy, software equipment for the HOUNSFIELD H10K-S testing Machine.Is this possible?please send me any info's about it.
thanks a lot.

Answer

Many thanks for your question. QMat Professional Software is compatible with your H10KS as well as any S, T or M Series machines. Qmat Professional Software is excellent,easy to use software. It is supplied with over 1300 pre written test routines covering many British and International Test Standards. it is also supplied with a test generator facility to allow users to quickly and easily generate and use their own test routines.

I have passed your enquiry over to a colleague in our Export Sales Dept who will send you further information.□
